Sir:

REQUEST FOR CORRECTED PATENT APPLICATION PUBLICATION
UNDER 37 C.F.R. § 1.221(b)

On February 10, 2005, the U.S. Patent and Trademark Office published the above-identified Application No. 10/814,428, as Publication No. US-2005-0031563-A1. The published application contains a mistake that is the fault of the Office and is, in Applicants' view, material. Attached hereto is a copy of each relevant page of the originally filed application and a marked-up copy of the corresponding page of the published application containing the mistake.

A mistake is material when it affects the public's ability to appreciate the technical disclosure of the patent application publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent. See 37 C.F.R. § 1.221(b). The mistake listed below may affect the public's ability to appreciate the technical disclosure of the patent application publication or to determine the scope of provisional rights.

The mistake, which is indicated in red ink on the relevant page of the marked-up copy of the published application attached hereto, is listed below with its correction.

1. In paragraph [0162], the published application reads
"(β,γ-dihydroxypropyl)oxy-3-nitro-4-(β-hydroxyethyl)aminobenzene "
whereas it should read "1-(β,γ-dihydroxypropyl)oxy-3-nitro-
4-(β-hydroxyethyl)aminobenzene."

For at least the foregoing reasons, Applicants request that the Office correct the above-identified mistake in the published application, which was the fault of the Office. Further, Applicants request that the Office forward to Applicants a copy of the corrected published application or at least a notification of the occurrence or predicted occurrence of the corrected publication once it has been corrected.

Applicants believe that no Petition or fee is due in connection with this Request, however, if any Petition or fee is due, please grant the Petition and charge the fee to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
